

My Coming Day

Vs. 1

F G
I can't even comprehend, the desperate feeling setting in
F C
Lost, alone I can not find my way
F G
I've got my hand in front of me, to feel my way I can not see
F C
Pressing through the night to a new day

Chorus

C Am
Darkness begins to make way, for the dawning of the coming day
Dm G Dm G
I see the Son on the horizon, as the night finally begins to fade
C Am
I can see His majesty; I hear the music of heaven sing
Dm G Dm G
Moving slowly across the sky, flooding the earth with His glorious light
F G F G C
I know I heard Your voice tell me, in every night You'll be my coming day

Vs. 2

Though I'm troubled I can hear, a soft whisper in my ear
Reassuring promises of love
Shadows slowly start to cast, brightness eases in at last
Lifted hands looking up above

Bridge

Dm C/E
You promised that you'd never leave
Dm G
You promised that you'd never forsake me
Dm C/E Bb G
I am leaving proof Oh God, that Your promises are true
