

Completely Yours

Vs. 1

I can't take back all the wasted time
When I didn't have You in my life
Still You loved me every passing day
Even as I stood in my mistakes
I am filled with gratitude
Here's a song from me to You

Chorus

You saved me, now take me
Every thought every dream, everything about me
You made me, You gave me
More than hope, more than life, more than just a feeling
You are the strength to fight my weakest day
So all I have is all of Yours to take
I'm completely Yours

Vs. 2

I can't take back what I tried to hide
Knowing what was missing deep inside
Still You helped me with a great escape
Left behind was just a broken chain
I am so in love it's true
Here's a song from me to You

Bridge

I know one thing that is true
No one can compare to You
I know Your love is never far
I love You just for who You are
You are everything, You are all I need
