

# Reach Out

## **Vs. 1**

I cry myself to sleep, no mother or no father holding me  
I wake another day, innocently hoping for a change

I wait with an empty stare  
God are You there?

## **Chorus**

Reach out to me, I don't know what else to do  
Here I'm reaching out for you  
Reach out to me, hold me close don't let me go  
All I really want is a home

## **Vs. 2**

My dream seems to fade, a better life gets further away  
The days go by, holding on to hope deep inside

I wait with an empty stare  
God are You there?

## **Bridge**

I'm holding on to today, I will patiently wait  
For love to come my way
